DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 5, 6, 8, 12, 13, 15, 18, 19 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The present invention discloses a radio signal receiving method and radio signal receiver. The closest prior art Siwiak (US 2004/0165686 A1) in view of Siwiak (US2004/0174928 A1) together disclose a similar system and method but fail to disclose a template generation portion for generating a template; and wherein said template generating portion stores the reception waveform of the first signal as a first reference waveform, generates a second reference waveform by converting the first reference waveform and generates the template by synthesizing the first reference waveform and the second reference waveform. This distinct feature has been added to the independent claims 1, 8, and 15, therefore rendering claims 1, 5, 6, 8, 12, 13, 15, 18, and 19 allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
